See, I am doing a new thing! Now it springs up; do you not perceive it? Isaiah 43:19

FINANCIAL AID

MORE OPTIONS THAN EVER BEFORE

Laramie Christian Academy has launched a new financial aid initiative through five strategic solutions to enable families of all financial backgrounds to attend our Academy.

LCA Scholarships –NEW

LCA Scholarships are a new opportunity this next year. LCA has set aside funding for families who want to attend but find tuition is out of reach.

This is our second year with ACE scholarships options available to LCA families. *ACE Scholarships works with low-income families from a variety of different circumstances across numerous states. To qualify for an ACE scholarship, a family must meet the income requirements for the federal Free and Reduced Lunch Program. Our families have an average income of \$43,766 a year.* -- acescholarships.org

We also offer Multi-Student Discounts, Employment Opportunities, and Academy Tuition Partnership as further ways to bridge the gap, enabling every family to attend.

Multi-Student Discounts

Employment Opportunities

There is always a way to fund tuition at LCA

Finances need never prevent enrollment

Academy Tuition Partnership

For more information: Please indicate your interest in applying for any of these options in your registration form at laramiechristianacademy.com/enroll or contact our office info@laramiechristianacademy.com.

BALLOON LAUNCH VIDEO WRAP-UP

Dr. Phil Bergmaier returned to Laramie Christian Academy for the final unit in our Stay-Field Trip. December 2022, LCA launched a weather balloon with 3 payloads (boxes of items weighing less than 6 lbs.) into the stratosphere. This month, Dr. Bergmaier returned with a video documenting our payload's journey via the balloon flight, balloon pop, parachute descent, landing and finally, recovery.

In total, Dr. Bergmaier came to LCA four times. Once for a pre-flight educational lesson. Twice on launch day, for the launch and return with the payload boxes so our students could observe their items after the flight. Finally, this month, his visit included an amazing video and a further educational lesson on atmospheric layers, wind, temperature and other data measured while our balloon and payload was in flight. What a fun way to learn so many neat facts about our atmosphere and weather!

TEACHER SPOTLIGHT

MRS. PLOTNER

Mrs. Plotner joined LCA staff this year as our Lunch Room Teacher, Classroom Aide, Recess Teacher and Custodian.

Mrs. Plotner is dedicated to the mission and success of LCA and a mother of three enrolled students. Her sunny yet firm approach with students is appreciated by all. "I just want to help out wherever I'm needed to take some of the load off the Admin shoulders," she stated upon hire.

In addition to her regular roles, Mrs. Plotner has also joined our Feed the Need fundraiser Leadership team as our event coordinator. Coordinating the logistics for both our Kick-Off event, Thursday March 9, at 6pm, and our Packing Party, April 14th. LCA is blessed to have Mrs. Plotner on staff and so thankful for her everyday impact on all.

PLANETARIUM FIELD TRIP

This year's trip to the UW Planetarium coincided with the start of our Astronomy science unit for our fifth and sixth grade class. Always a favorite for students, this field trip opens our eyes to the vast and immeasurable universe our incredible God has created.

Dr. Chip Kobulnicky curated our space exploration with a presentation on our solar system, constellations, and the closest star.

Students hypothesized how big our sun would be in a model with the earth being a ping pong ball. (The size of the planetarium room.)

DATES TO REMEMBER

FEBRUARY 20 -- NO SCHOOL

Presidents Day -- No school all students and staff

THE BIG "3" OF LCA

**ACADEMIC EXCELLENCE
BIBLE INTEGRATION
RESILIENT HOPE IN JESUS**

LCA IS AN OFFICIAL
